

NARAMAMIDI DURGAPRASAD

Full Stack Developer

Rajahmundry, Andhra Pradesh | 7386979128 | durgaprasadnaramamidi95@gmail.com | GitHub | LinkedIn | Portfolio

SUMMARY

Python Developer with strong technical skills and hands-on software project experience. Skilled in Java, Python, HTML, CSS, JavaScript, PHP, with practical experience developing AI-powered applications, automated reporting systems, and digital platforms. Completed a Web Design Internship, applying UI/UX principles and front-end development to real-world requirements.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Tools & Practices: GitHub, Agile/Scrum, OOP, DBMS

EXPERIENCE

Full Stack Web Development Intern — TeCodex IT Solutions, Vijayawada

- Engineered a 3-tier user management system (SuperAdmin, CanteenAdmin, User) segregating data across 4 sub-canteens without full-page reloads.
- Synchronized live shopping-cart state with backend endpoints, reducing sync latency to under 200ms; automated cron-job pingging to achieve 99.9% uptime.

Web Development Intern — Aditya University (In-house)

- Built a Java/Spring Boot backend generating multi-day travel itineraries from 6 user preferences, integrating Gemini API for structured, 100% consistent JSON output. Designed a responsive dashboard (HTML/CSS/JS) displaying day-by-day plans and cost breakdowns via RESTful APIs.
- Built an independent automated reporting system to streamline student records and reduce administrative workload for college staff. Manages student marks, certificates, and other academic records.

PROJECTS

Restora – Smart Canteen System *Java, Spring Boot, MySQL, REST APIs, Docker, Render* (Live Demo)

- Architected and deployed a responsive full-stack Smart Canteen System using Java, Spring Boot, MySQL, REST APIs, Docker, and Render.

Intelli Trip – AI Trip Planner *Java, Spring Boot, MySQL, Gemini API, Firebase, TiDB Cloud* (Live Demo)

- Implemented Firebase Authentication and cloud relational databases (TiDB/MySQL), securing 1,000+ accounts with zero breaches; integrated Google Gemini API, cutting request failures by 40%.

Automated Reporting System *React, Material-UI, chart.js, Node-js, SQL, Framer Motion*

- Designed frontend and user experience dashboards with the tech team.
- Implemented RBAC (100% data isolation) and a local SQLite database, cutting retrieval latency 35% and enabling full online functionality.

EDUCATION

B.Tech in Information Technology — Aditya Engineering College

CGPA: 8.98

Jul 2024 – May 2027

CERTIFICATIONS

- NPTEL – Industrial IoT 4.0, HCI
- Infosys Springboard – DBMS, OS, Computer Networks
- APSSDC – Android App Development (Workshop), Quantum Computing (Workshop)
- Hackerrank – Python (Basic)

ACHIEVEMENTS

- Competitive Programming: 300+ problems (LeetCode), 10+(Geeks for Geeks), 300+ (CodeChef, 3)
- 5 badges in C, Python, Java, SQL (HackerRank)
